NOTIFICATION OF AN EVENT, DATED APRIL 20, 2020 – ALT & WITZIG  
ENGINEERING, INC.

Dear Mr. Witzig:

This acknowledges receipt of your letter dated April 20, 2020, reporting an incident that occurred on March 26, 2020, in which an NRC-licensed CPN Model MC-1 portable nuclear density gauge was stolen from one of your company vehicles and recovered on the same day. The U.S. Nuclear Regulatory Commission (NRC) has reviewed your letter and its attachments and has determined that no violations of NRC requirements occurred because the portable gauge was stored on the back of the vehicle with two independent physical controls that formed tangible barriers to secure it from unauthorized removal in accordance with Title 10 of the *Code of Federal Regulations* (CFR) 30.34(i). This incident may be further reviewed during a future NRC inspection.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC's Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC's website at <http://www.nrc.gov/reading-rm/adams.html>.

Please feel free to contact Edward Harvey of my staff if you have any questions regarding this correspondence. Mr. Harvey can be reached at 630-829-9819.

Sincerely,

/RA/
