May 13, 2020

Terry Potter, Engineering Manager
Coal-Mac, LLC
P.O. Box 1050
Holden, WV 25625

SUBJECT: COAL-MAC, LLC, CONSENT TO TRANSFER LICENSE, MAIL CONTROL NO.
617127

Dear Mr. Potter:

By letter dated November 11, 2019, email dated March 30, 2020, email dated April 30, 2020, and email dated May 4, 2020, documented in NRC's Agencywide Documents Access and Management System (ADAMS), Accession Numbers ML19338D927, ML20094H573, ML20126G435, and ML20128J490, Coal-Mac, LLC, who was wholly owned by Arch Coal, Inc., requested the NRC's consent to an indirect transfer of control of NRC Materials License number 06-23678-01 from Arch Coal, Inc. to Condor Holdings, LLC. This indirect transfer of control between Arch Coal, LLC, and Condor Holdings, LLC, occurred on December 13, 2019. Subsequent to the sale, on April 1, 2020, Condor Holdings, LLC, merged into Coal-Mac, LLC. Phoenix Coal Holdings, LLC, is the parent company of Condor Holdings, LLC, now Coal-Mac, LLC, and JMP Holdings is now the ultimate parent of Coal-Mac, LLC.

From the above letters and email, we understand that this transfer did not result in a change associated with the materials, persons using licensed material, the locations, facilities, and equipment, nor the radiation safety program.

Based on the above understandings, as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's safety review of the request, the NRC consents to the transfer.

Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change. If you have any questions regarding this letter, please contact Randolph Ragland at 610-337-5083 or via electronic mail at Randolph.Ragland@nrc.gov.

An environmental assessment for this action was not required because this action is categorically excluded under 10 CFR 51.22(c)(21)

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation in this matter.

Sincerely,

Randolph C. Ragland, Jr., Senior Health
Physicist
Commercial, Industrial, R&D
and Academic Branch
Division of Nuclear Materials Safety
