Southern Nuclear Operating Company
Vogtle Electric Generating Plant Units 3 and 4
Revised Regulatory Commitment for Mitigative Strategies Description and Plans

Ladies and Gentlemen:

Southern Nuclear Operating Company (SNC), the licensee for Vogtle Electric Generating Plant (VEGP) Units 3 and 4, submitted Revision 1 of the Mitigative Strategies Description and Plans (MSD) for Loss of Large Areas (LOLA) of the plant due to explosions or fire on November 12, 2010 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML103200368; Security-Related Information withheld from public disclosure in accordance with 10 CFR 2.390).

As noted in the MSD Revision 1, SNC will manage MSD commitments in accordance with the Nuclear Energy Institute guidance document NEI 99-04, "Guidelines for Managing NRC Commitment Changes", which requires notifying the NRC of certain MSD regulatory commitment changes. This letter notifies the NRC of such an MSD commitment change and provides the revised regulatory commitment and associated basis for the commitment change in the Enclosure. SNC has evaluated this commitment change in accordance with NEI 99-04 and determined that this commitment change does not require NRC approval.

The information in the Enclosure **contains Security-Related Information and, therefore, is requested to be withheld from public disclosure in accordance with 10 CFR 2.390.**

Should you have any questions, please contact Mr. Nicholas Kellenberger at (706) 437-2333.

I declare under penalty of perjury that the foregoing is true and correct. Executed on the 14th day of May 2020.

Respectfully submitted,

SOUTHERN NUCLEAR OPERATING COMPANY

Michael J. Yox
Regulatory Affairs Director Vogtle 3 & 4
