Gentlemen:

Subject: Inspection Report No. 030-21052/85-01

This refers to the routine safety inspection conducted by Ms. Nancy Dennis of this office on July 1, 1985 of activities authorized by NRC License No. 29-12952-02 and to the discussions of our findings held by Ms. Dennis with Mrs. Mary Slattery, Secretary, of your staff at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. These violations have been categorized by severity level in accordance with the revised NRC Enforcement Policy (10 CFR 2, Appendix C) published in the Federal Register Notice (49 FR 8583) dated March 8, 1984. You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.

From the discussion of our findings at the close of the inspection with Mrs. Slattery of your staff, it is our understanding that, in the future, the key to the irradiator will be maintained in the school safe unless requested by the Radiation Safety Officer. The key will not be attached to the Gammator being stored in the Physics Room. In your response to this letter, please confirm this understanding.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget
