SUBJECT: APPLICATION FOR BYPRODUCT MATERIAL LICENSE DATED August 29, 1984
AND OUR REQUEST FOR INFORMATION DATED January 15, 1985

Gentlemen:

This concerns the subject application for byproduct material license and our telephone call of February 25, 1985 in which we notified you that the application was deficient and that certain additional information was required. As stated in our letter dated January 15, 1985 we need confirmation that your point-of-sale packages contain the following statement as required by 10 CFR Section 32.29(b)(3)(iii): "This detector contains radioactive material and has been manufactured in compliance with U. S. Nuclear Regulatory Commission (NRC) Safety Criteria in 10 CFR Section 32.27. The purchaser is exempt from any regulatory requirements."

You are hereby notified that if we do not receive a reply within thirty (30) days from the date of this notice, it may be necessary to deny your application and terminate your license. Such action would require that you divest yourself of all licensed material.

Sincerely,

SUMMARY

I explained to Mr Ochocki, that their package labels would have to be updated in accordance with 10CFR Part 32.29 (b) (iii) requirements. Also this point was made in the NRC's letter dated Jan 15, 1985 to Rixson-Firemark.

Mr Ochocki, agreed that they would change the labels and let us know by letter when the change has taken place.
