INTERVENORS' REQUEST FOR EXTENSION OF TIME TO FILE RESPONSE TO APPLICANTS' MOTION
FOR SUMMARY DISPOSITION OF CONTENTION 14

By motion dated July 31, 1985, Applicants asked for summary disposition of Contention 14 (TDI emergency diesel generators). By request dated August 14, 1985, the NRC staff requested an extension of time to September 23, 1985 to respond to the Applicants' motion. Intervenor agreed not to object to this staff request provided Intervenor are granted the same extension.

The undersigned was unable to contact counsel for the Applicants but will attempt to do so early next week to request that Intervenor's time be extended along with the staff's. Intervenor hereby request an extension until September 23 to respond to Applicant's motion.

Intervenor's witness on a number of the issues was out of town during the period when the Applicants filed motions for summary disposition; the motions were forwarded to this individual, who has only been able to review them in the past few days. Intervenor hereby notify the Board, the Applicants and the NRC staff that Intervenor will shortly file responses (or, in one case, notification that we have no response) on all motions for summary disposition filed to date by the Applicants. On those which are late, Intervenor will request an extension for cause. Intervenor regret any inconvenience this may have caused and apologize for the misunderstanding.
