Attention: Beth Riedlinger

Dear Ms. Riedlinger:

Enclosed are an Application for Material License, Form 313, and a check in the amount of \$230.00 for the license fee. The license is for a Troxler Series 3400 Nuclear Moisture/Density Gauge.

We have ordered the gauge and shipment is pending receipt of our license. One of our employees has attended the Troxler Training Seminar and has received certification. We are presently setting up an in-house session with the Troxler representative to be given to others of our staff who may operate the gauge. This session is tentatively scheduled for the week of September 9th.

If you require further information for processing the license, please contact me.

Sincerely,

LCMF LIMITED
