Samuel J. Chilk, Secretary
Office of the Secretary
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attn: William L. Clements

Re: PHILADELPHIA ELECTRIC COMPANY
(Limerick Generating Station,
Units 1 and 2)
Docket Nos. 50-352 and 50-353 OL

Dear Mr. Chilk:

This will memorialize a telephone conversation that I had last Thursday, November 21, with Mr. William L. Clements of your office concerning the Anthony/FOE petition to reopen the captioned proceeding and conduct additional hearings on its Contention V-3a, V-3b. The Anthony/FOE petition is based on Licensee Event Report No. 85-080 that was filed by the Licensee with the Appeal Board on October 31, 1985.

I advised Mr. Clements that the Staff considered it necessary, in order to respond to the petition, to visit the site and that the visit and subsequent evaluation and analysis would be difficult to complete within the time frame provided by the rules. This factor, and the illness of one of the Staff involved with this issue prompted the Staff to request an extension of time to respond to the Anthony/FOE petition.

Mr. Clements granted the request and the Staff intends to file its response to the Anthony/FOE petition no later than Friday, December 13, 1985.

Sincerely,

Handwritten signature of Benjamin H. Vogler.
Benjamin H. Vogler
Counsel for NRC Staff
