Re: Control Number 03198

Dear Ms. Jackson:

In accordance with your letter of December 13, 1984, enclosed please find our check in the amount of \$60.00 to cover amendment to Materials License 37-17408-01 to change the name and to add R. King as an authorized user.

Should our previous check in the amount of \$40.00 come to your attention, please return it to me, care of the above address.

Very truly yours,

Justin W. Mills
Manager of Engineering

Re: License No. 37-17408-01, ~~Control No. 17150~~

Dear Ms. Johansen:

Rexnord Electronic Products holds a Materials License on NRC Form 374, License #37-17408-01, which expires June 30, 1987.

All parts of the license are still applicable and the conditions of use are exactly the same except for the following:

- Licensee, Line 1. The name of Licensee has been changed from "Rexnord Electronic Products" to "Rexnord Process Controls."
- Part 12. Mr. F. A. Parker is no longer with Rexnord. Mr. J. W. Mills is still an employee.

15723
Amendment
12/24/84
Brown

NOV 17 CR # 015517

We would like the name of R. King added to the Materials License. Mr. King is Quality Assurance Manager for Rexnord Process Controls at Malvern. Prior to this, he was in a similar position with the E.L.L. Division of Microdot Corporation. Additionally, his work experience includes twelve years in the defense electronics industry in various engineering positions, five of which were as the Manager of Product Engineering for Vishay Resistive Systems of Malvern, PA. His educational background includes two years attended at Monroe Community College of Rochester, NY, as well as several additional Electrical Engineering credits gained through the University of Maryland. He served in the U.S. Air Force from 1966 to March of 1970, in the field of Airborne Navigational Electronics.

Enclosed please find our check in the amount of \$40.00, ~~CONTROL NUMBER 17150~~, to cover cost of this amendment.

Very truly yours,

Justin W. Mills
