

SEP 11 1985

License No. 07-00455-29  
Docket No. 030-03861  
Control No. 104117

E. I. Du Pont De Nemours & Company  
ATTN: W. M. Driver  
Purchasing Agent  
1007 Market Street  
Wilmington, Delaware 19898

Gentlemen:

Please find enclosed an amendment to your NRC Material License.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the Region I Material Licensing Section, (215) 337-5239, so that we can provide appropriate corrections and answers.

Please be advised that you must conduct your program involving licensed radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, please note the items in the enclosed, "Requirements for Materials Licensees."

We note that your application was sent to our Washington, D. C. office. Future applications and other correspondence concerning your license should be sent to the USNRC, Region I, 631 Park Avenue, King of Prussia, Pennsylvania 19406, to the attention of Nuclear Materials Safety Section.

Please note that the Cs-137 in the Ohmart Model SHD source holder for the 1004 point level gauge is one of the gauges approved under Item 9.A. of your license and therefore you need not amend your license for possession of these generic gauges as long as Ohmart, Texas Nuclear, Accu-Ray, Kay-Ray or LFE have assured you that these gauges are evaluated and approved for distribution on their license.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, the NRC expects licensees to pay meticulous attention to detail and to achieve the high standard of compliance which the NRC expects of its licensees.

You will be periodically inspected by NRC. A fee may be charged for inspections in accordance with 10 CFR Part 170. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in prompt and vigorous enforcement action against you. This could include issuance of a notice of violation, or in case of serious violations, an imposition of a civil penalty or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.
