EXHIBIT A

REMOVAL OF GAUGES BY PLANT FORCES

The following procedure is to be followed for the removal and reinstallation of gauges for routine maintenance of related equipment.

1. The gauge will be closed and locked and area surveyed to assure proper lockout.
2. The gauge will be removed from area and placed in radiation storage area to prevent unauthorized removal.
3. The gauge will be reinstalled after completion of maintenance on related equipment.
4. The gauge area will then be surveyed to insure gauge was installed properly and radiation levels are back to original level.
5. Reinstallation of the gauge will be performed by following the manufacturers instructions.
6. Film badges will be used by all personnel directly concerned.
7. The work will be supervised by the Radiation Protection Officer or Alternate Radiation Protection Officer.
