RECEIVED

5. Cesium- 137, unknown- sealed in Gammator 50., unknown- amount of 400 curies stipulated by retired teacher.
6. Licensed material was used in the early 1970's to irradiate Biological specimen. Has not been used in years and is not intended for future use. The Gammator 50 is stored in a locked room within the Science department. There is no admittance to any but the Department chairperson and myself.
7. None
8. Any person entering area is a fully certified and trained Science teacher. Entry to this area is restricted under normal conditions.
9. Lab storage area.
10. None
11. No waste is generated since the device is not used.

It is intended that the Gammator 50 will be eventually removed from our possession within the rules and guidelines of the NRC.

Very truly yours,

Michael P. Krause
