Re: Application for Material License Renewal
Control Number: 70143

Dear Ms. Reidlinger:

This letter is in response to the letter we received from you dated February 27, 1985. On December 28, 1984, Mr. Joe W. Allen requested the renewal of our Material By-product License #50-191-27-01. Mr. Allen is no longer with VECO and we are re-evaluating our need for a license at this time. We may still be interested in renewing our license; however, we require additional time in order to make a determination. We, therefore, request an extension of 30 days from the date of this letter in order to make the decision whether or not to renew the license. Currently VECO does not have in its possession or control any licensed material.

We will respond to you within this 30 day extension regarding our decision on this matter. If you have any questions or comments, please feel free to contact me.

Sincerely,

James A. White
