Dear Mr. Nussbaumer:

In your letter dated August 9, 1985, you requested our comments on the Topical Report entitled: "Transportable Modular Aztech Plant Licensing Topical Report" submitted by the General Electric Company. We have reviewed the Topical Report, Number NEDE-30878 against criteria established for stabilization of radioactive waste as outlined in the NRC Branch Technical Position (BTP). After completing our review of this report we are in concurrence with all comments generated by your staff.

In addition to the comments generated by the NRC, the department would like to see all outstanding issues raised by other states and reviewers. Copies of correspondence relating to any questions that may arise during the comment/response process prior to NRC approval should be sent to us.
