Material Licensing Branch
Division of Fuel Cycle and Material Safety
U.S. Nuclear Regulatory Commission, Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

SUBJECT: RENEWAL APPLICATION, MATERIAL LICENSE #34-00855-07

Gentlemen:

Enclosed in duplicate is application form NRC 313M and other pertinent information in support of our renewal request for our Radioactive Materials License. For the sake of completeness, I have included nearly all of the ancillary information required of a new application, even though we wish to make only minor changes in our program. We request that all of the physician users specified on our current license be carried over to the new license, and that we not be required to resubmit Supplements A and B for each individual.

Enclosed is a check for the application fee of \$580.00.

Thank you for your consideration.

Sincerely,

Paul A. Feller, Ph.D.,
Senior Radiological Physicist
