Dear Ms. Riedlinger:

We wish to amend our NRC License (No. 53-05379-01 & Docket No. 030-03546) to change the location of the use of by-product material by the Nuclear Medicine Section to the new Moanalua Medical Center. The RIA laboratory will remain at 1697 Ala Moana Blvd. Note that this application for amendment does not allow for the use of Xenon-133 at the new facility. This will be handled in a subsequent amendment.

We also wish to amend our NRC license to add Paul R. Garver, M.D. as an authorized user of by-product material. Dr. Garver is now authorized under NRC License No. 53-16533-02 (the Queen's Medical Center; Docket No. 030-14522). We ask that he be authorized for uses identical to those approved under the Queen's NRC license. He will also be designated as our institution's Radiation Safety Officer.

Please find an enclosed check for \$120 to cover the amendment fee.
Thank you.

Sincerely,

Ronald Mikolajczyk
