CONDITIONS

10. Licensed material may be used under United States Air Force control at locations where the Nuclear Regulatory Commission has regulatory jurisdiction consistent with the representations made in the application and conditions of this license.
11. Licensed material may only be used by, or under the supervision of, individuals designated by the United States Air Force Radioisotope Committee.
12. United States Air Force regulations, policies, and directives governing the use of licensed material must be consistent with the Nuclear Regulatory Commission's regulations.
13. The United States Air Force Radioisotope Committee shall assure that all installation, repair, maintenance or removal of irradiators and teletherapy equipment involving the removal of shielding or access to radioactive material will be performed by persons specifically authorized to perform these activities by the Nuclear Regulatory Commission or by an Agreement State.
14. The United States Air Force Radioisotope Committee shall assure that all human research uses of licensed materials will be approved by Food and Drug Administration approved Radioactive Drug Research Committee.
15. The United States Air Force Radioisotope Committee shall submit requests for approval to the Nuclear Regulatory Commission for exemptions from the Commission's regulations.
16. The licensee shall adhere to statements and representations contained in the application dated April 12, 1985, and to the understandings, dated June 26, 1985, between it and the Nuclear Regulatory Commission reached in the development and issuance of its license.
