Gentlemen:

This refers to the inspection conducted by Mr. C. A. Hackney of this office during the period September 16-20, 1985, of activities authorized by NRC Operating License NPF-38, for Waterford 3 Steam Electric Station, and to the discussion of our findings with Mr. R. S. Leddick and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included the implementation of the emergency plan and procedures, during the annual exercise.

Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These findings are documented in the enclosed inspection report.

The enclosed report identified deficiencies in your emergency preparedness program observed during the emergency exercise. It is requested that you provide this office with a schedule for correcting these deficiencies within 30-days after receipt of this letter.

Within the scope of the inspection, no violations or deviations were identified.

The response directed by this letter is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
