Radiation Protection Officer
2160 South First Avenue
Maywood, IL 60153

Enclosed is Amendment No. 09 to NRC License Number 12-11355-03, as requested by letter dated October 3, 1985.

We direct your attention to Condition 12.A. which authorizes your committee to approve physicians as long as they are certified by one of the Medical Specialty Boards listed in your letter of October 3, 1985. We have not, however, authorized your committee to approve physicians who are board eligible. These doctors' training must be reviewed by NRC with the assistance of its Advisory Committee on the Medical Uses of Isotopes (ACMUI). Therefore, should you have a non-certified physician, whom you wish to add to your license, it will be necessary to submit an amendment to your license with completed Supplements A and B. of NRC Form 313T (copy attached). In addition to the Supplements, letters of evaluation from each physician who served as a preceptor to the non-certified doctor should also be included.

Should you have any questions, you may contact us at (312) 790-5625.

Sincerely,

Original Signed By
George M. McCann
Materials Licensing Section
