Docket or Reference number 030-12746

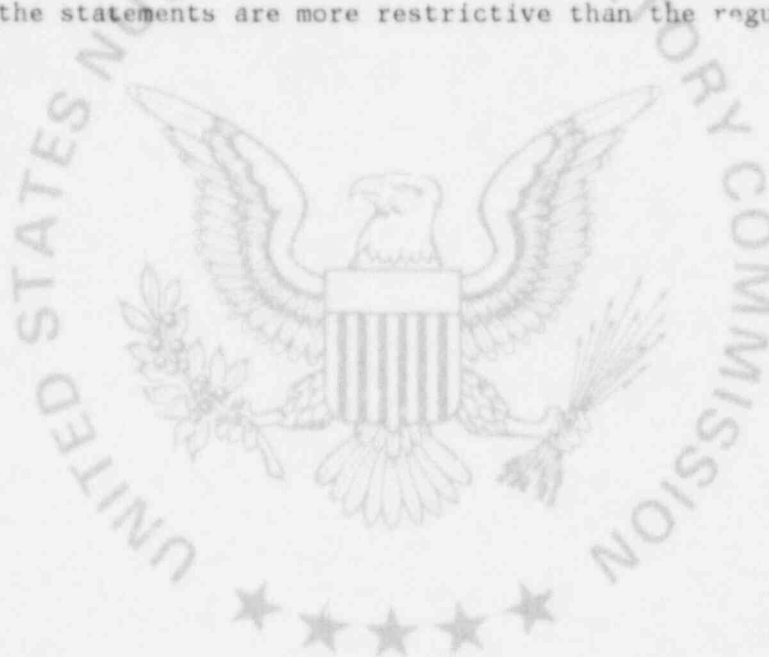

Amendment No. 07

Dow Corning Corporation
3901 S. Saginaw Road
Midland, MI 48640

In accordance with mailgram dated April 29, 1985, License Number 21-08362-13 is amended as follows:

Condition 15. is amended to read:

15. Except as specifically provided otherwise by this license, the licensee shall possess and use licensed material described in Items 6, 7, and 8 of this license in accordance with statements, representations, and procedures contained in application dated April 26, 1982 and mailgram dated April 29, 1985. The Nuclear Regulatory Commission's regulations shall govern the licensee's statements in applications or letters, unless the statements are more restrictive than the regulations.

SUMMARY

Discussed leak test process. It appears licensee has adequate monitoring (monitoring of nitrogen gases flowing over sensors) and past compliance record looks good, therefore feel extension reasonable.

Discussed leak test procedures with Stan Lasub. He will review procedures at time of his inspection.
