Attention: Drs. James H. Moy and Edison W. Putman

Gentlemen:

This is in reference to your application dated May 29, 1985 to renew your byproduct material license. In order to complete our review, we need the following additional information:

1. As Drs. Moy and Putman may train other personnel to operate the irradiator, you should specify:
 - a. The minimum number of hours of didactic training which would be considered adequate.
 - b. The minimum number of hours of actual irradiator use under the supervision and in the physical presence of Dr. Moy or Dr. Putman which will be considered adequate to allow an operator to use the irradiator independently.
 - c. The location where operator training records will be maintained for inspection purposes.
2. You should specify that an operable, calibrated survey instrument capable of measuring up to 500 milliroentgen per hour will be maintained at the irradiator facility.
3. You should state that irradiated food will be distributed in accordance with FDA regulations.

We will continue the review of your renewal request upon receipt of this information. You should submit your response within thirty (30) days from the date of this notice. Please reply in duplicate, and refer to Mail Control No. 70205.
