Northern States Power Company
ATTN: Mr. C. E. Larson
Director - Nuclear Generation
414 Nicollet Mall
Minneapolis, MN 55401

Gentlemen:

SUBJECT: BOISE INTERAGENCY FIRE CENTER SURVEY

This is to confirm a September 4, 1985 telephone conversation between Mr. Mike Ladd and Ms. Linda L. Kers of our staffs regarding the survey of the Prairie Island and Monticello sites by the Department of Interior, Boise Interagency Fire Center (BIFC) representative. Mr. Steve Jenkins, BIFC, will survey the Prairie Island site on September 26, and the Monticello site on September 27, 1985, and will need access to the sites and the Emergency Operations Facilities on those dates.

Mr. Jenkins has found that surveys are most efficiently conducted if a representative of your radio communications group is also present during the survey. If possible, it is highly recommended that such a representative be present or available to answer any questions regarding the BIFC antennae requirements.

Although unescorted access will not be required, provided below are Mr. Jenkins' full name and Social Security Number:

[REDACTED]

If you require additional information please contact Ms. Kers, Emergency Response Coordinator, on (312) 790-5711.

Sincerely,

Jack A. Hind
Jack A. Hind, Director
Division of Radiation Safety
and Safeguards
