August 26, 1985

U. S. Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60132

Dear Sirs:

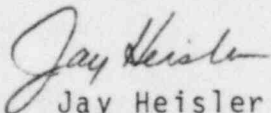

We would like to amend our N.R.C. license No. 48-08325-01 to reflect the following changes:

1. Robert M. Boex, M.D. will be leaving Trinity Memorial Hospital on August 30, 1985 and will relinquish his RSO duties. Werner Kordas, M.D. will be his replacement as RSO. Please find attached copies of NRC 313M - Supplements A & B in support of Dr. Kordas' qualifications for RSO. The originals for Supplement A & B will be found in our application for license renewal dated April 20, 1983. Also enclosed is a letter from Dr. Boex outlining the changeover.
2. Instrument linearity for the dose calibrator used in the Scanning Section of Radiology will be checked using the Calicheck Dose Calibrator Linearity Test Kit 34-210 sold by Nuclear Associates of Carle Place, New York.

Attached please find a copy of the instructions which will be followed when using this linearity test kit. Instructions in Appendix D, Section 2, Part E will be superseded by use of this device. All other portions of Appendix D, Section 2 will remain in effect as per our license renewal dated April 20th, 1983.

Please find enclosed our check in the amount of \$120.00.

Sincerely yours,

Jay Heisler
Senior Vice-President

Encl.
