Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Quad Cities Station Units 1 and 2
Supplement to Proposed Amendment to
Section 6 of the Technical Specifications
NRC Docket Nos. 50-254 and 50-265

References (a): Letter from T. J. Rausch to H. R. Denton
dated February 17, 1983.

(b): Letter from B. Rybak to H. R. Denton dated
August 23, 1984.

Dear Mr. Denton:

The reference (a) letter proposed to amend Section 6 of the Technical Specifications for Facility Operating Licenses DPR-29 and 30 for Quad Cities Units 1 and 2, respectively. Reference (b) provided additional supplemental changes to Section 6 resulting in part from the issuance of revised reporting requirements in 10 CFR 50.72 and 50.73. As a result of organizational changes in our corporate and station management structure, this transmittal provides additional changes to Section 6 of the Technical Specifications which supplement those previously submitted. Pursuant to 10 CFR 50.90, we request your review and approval of these amendments.

The proposed amendments for Quad Cities Units 1 and 2 are provided in Attachments 1 and 2, respectively. To facilitate your review, these amendments incorporate all changes previously submitted in addition to the new organizational changes. Therefore, these proposed amendments entirely supersede the references (a) and (b) submittals. The additional changes beyond those previously submitted are summarized in Attachment 3. The revision bars in Attachments 1 and 2 reflect all changes relative to the currently approved Quad Cities Technical Specifications.

The proposed changes have been On-Site and Off-Site reviewed and approved. We have reviewed the additional Technical Specification amendments included in this transmittal and determined that no significant hazards consideration exists. Our review is documented in Attachment 4. Commonwealth Edison is notifying the State of Illinois of this supplemental request by transmittal of a copy of this letter and its attachments to the designated State Official.

Please direct any further questions you may have regarding this matter to this office.

Three (3) signed originals and thirty-seven (37) copies of this transmittal and its attachments are provided for your use.

Very truly yours,

J. R. Wojnarowski
Nuclear Licensing Administrator
