Glen Ellyn, Illinois 60137

Dear Sir:

Please amend Byproduct Material License 21-15910-01 for the following charge:

Allow another authorized physician who is an authorized user on another Byproduct Material License to fill in for Dr. Finch for up to (60) sixty days during the calendar year in the event of Dr. Finch's absence.

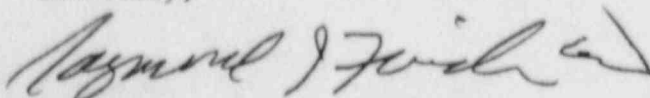

The clinic is a large practice radiology office which services many referring physicians and is not closed when Dr. Finch is absent. During these times another qualified radiologist will fill in, however, from year to year it is impossible to predict who will be available to fill in.

Therefore I am requesting an amendment clause similar to that allowed on institution licenses. The following procedures will be followed.

1. The authorized physicians must possess an NRC Byproduct Material license which allows the use of Groups I, II, III, and Xe-133. A copy of the license will be maintained on file.
2. The physician will review the procedure and license conditions of license no. 21-15910-01 with Dr. Finch.

If there are any questions concerning this request please contact either myself or Mr. Ray A. Carlson at (313) 494-7364.

Sincerely,

Raymond J. Finch, D.O.
