Attention: Materials Licensing Section

Subject: Byproduct Materials License No. 12-05650-17

Dear Sir:

Commonwealth Edison hereby requests an amendment to the referenced license. Two copies of the requested amendment are attached. Three changes are involved. The first change is the addition of a source for calibration of neutron monitoring source range detectors. The second change is the correction of a misspelled name in condition 12. The third revision results from a change in marital status; S. M. Moko becomes S. M. Holm.

Respectfully,

G. L. Alexander
Nuclear Licensing Administrator
