Walnut Creek, CA 94596

Subject: Certification of the Operability of All Required  
Systems for Initial Entry Into Mode 5  
Docket No. STN-50-529  
File: 86-056-026

Re: PVNGS Unit 2 Operating License NPF-46

Dear Mr. Martin:

As required by the Palo Verde Nuclear Generating Unit 2 Operating License, NPF-46, I am hereby certifying that item 1.a of Attachment 1 to the license has been completed for the initial entry into Mode 5.

The operability of systems required for Mode 5 has been demonstrated by successfully meeting the acceptance criteria in the PVNGS Technical Specifications. This has been accomplished by the completion of the applicable surveillance tests or by pre-operational testing which verifies the meeting requirements of the Technical Specifications and which were performed within the required surveillance interval or by operability as demonstrated for Mode 6.

Very truly yours,

E. E. Van Brunt, Jr.  
Executive Vice President  
Project Director
