March 26, 1997

U. S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, DC 20555

Subject: Oconee Nuclear Site
Docket No. 50-269, -270, -287
Technical Specification 3.1.6 Bases Revision

Please find attached a revision to the Technical Specification 3.1.6 Bases. This revision deletes the detection time of the reactor building air particulate monitor for a RCS leak of 1 gpm.

Attachment 1 contains the new Technical Specification Bases page. Attachment 2 contains a marked up version of the Bases.

Very truly yours,

J. W. Hamilton for

J. W. Hamilton
Oconee Site Vice President
