

NOV 27 1985

Docket Nos. 50-272
50-311

Public Service Electric and Gas Company
ATTN: Mr. Corbin A. McNeill, Jr.
Vice President - Nuclear
P. O. Box 236
Hancock's Bridge, New Jersey 08038

Gentlemen:

Subject: Resolution of Delaware's Category B Deficiencies
Identified During the Salem Nuclear Generating
Station Emergency Preparedness Exercise of
October 26, 1983

The attached correspondence regards two deficiencies related to habitability problems at the Delaware State Emergency Operations Center. These deficiencies were identified during the October 26, 1983 Salem REP exercise. The correspondence indicates that both the Delaware Division of Emergency Planning and Operations and FEMA Region III have found the proposed corrective actions to be acceptable. The deficiencies, therefore, are considered to be resolved, as long as the schedule of corrective actions is completed in a timely manner.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed By:

T. L. Harpster, Chief
Emergency Preparedness Section
Division of Radiation Safety
and Safeguards
