

AUG 28 1985

License No. 37-20893-01
Docket No. 030-28840
Control No. 104191

The Tri County Diagnostic Center
ATTN: Glenn H. Moran Jr., Administrator
Cardio Inc.
5530 Wisconsin Avenue
Chevy Chase, Maryland 20815

Gentlemen:

Please find enclosed your NRC material license.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the Region I Material Licensing Section, (215) 337-5239, so that we can provide appropriate corrections and answers.

Please be advised that you must conduct your program involving licensed radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, please note the items in the enclosed, "Requirements for Materials Licensees."

Condition 12. of your license states that licensed material shall be used by Dr. Clifford Turner. Dr. Turner has responsibility for the approval of procedures and the interpretation of the results of diagnostic procedures in which radiation is applied to patients from the bone mineral analyzer.

Properly trained technicians, technologists, or other paramedical personnel under Dr. Turner's supervision may be delegated the following activities:

- a. The preparation and quality control testing of the bone mineral analyzer.
- b. The use of the bone mineral analyzer for the collection of data to be used by the physician.
- c. The administration of radiation from the bone mineral analyzer to patients, if permitted under applicable Federal, State, or local laws.

Supervision does not mean that Dr. Turner is necessarily present for each use of the bone mineral analyzer.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, the NRC expects licensees to pay meticulous attention to detail and to achieve the high standard of compliance which the NRC expects of its licensees.

You will be periodically inspected by NRC. A fee may be charged for inspections in accordance with 10 CFR Part 170. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in prompt and vigorous enforcement action against you. This could include issuance of a notice of violation, or in case of serious violations, an imposition of a civil penalty or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

We wish you success in operating a safe and effective licensed program.

Sincerely,

Original Signed By:
John D. Kinneman
