Gentlemen:

By letter dated March 31, 1997, Carolina Power & Light (CP&L) Company submitted a supplement to a March 4, 1996, license amendment request for the Brunswick Steam Electric Plant, Unit Nos. 1 and 2. This amendment request revises Technical Specifications 3.0 and 4.0, and the associated Bases for these sections, to incorporate the guidance of NRC Generic Letter 87-09, "Sections 3.0 and 4.0 of the Standard Technical Specifications (STS) On The Applicability of Limiting Conditions for Operation and Surveillance Requirements."

CP&L has identified a typographical error in proposed Technical Specification 4.0.1. Proposed Technical Specification 4.0.1 incorrectly references Surveillance Requirement 3.0.3 — the correct reference is actually Surveillance Requirement 4.0.3. Enclosed are a replacement typed Technical Specification page 3/4 0-2 for BSEP Unit Nos. 1 and 2 which corrects this reference.

Please refer any questions regarding this submittal to William R. Murray at (910) 457-2842.

Sincerely,

Mark A. Turkal  
Supervisor — Licensing  
Brunswick Steam Electric Plant
