Docket No. 50-423

Northeast Nuclear Energy Company
ATTN: Mr. J. F. Opeka
Senior Vice President - Nuclear
Engineering and Operations Group
P. O. Box 270
Hartford, Connecticut 06101

Gentlemen:

Subject: Review of Stone and Webster Engineering Corporation (SWEC)
Quality Assurance Program Changes submitted in accordance
with 10 CFR 50.55(f)(2)

Reference: Northeast Nuclear Energy Company letter FO622A from
J. F. Opeka to Dr. Thomas E. Murley dated October 7, 1985

We have received the referenced letter that transmitted revisions H and J of SWEC Quality Assurance Program Manual. Revision H contained six minor changes to Section VIII - Identification and Control of Materials, Parts a. Components; Revision J required the progression from "Preliminary Safety Analysis Report" to "Final Safety Analysis Report".

Region I staff has reviewed the above changes and found them acceptable as they did not reduce the commitments of the SWEC previously approved QA plan.

The effectiveness of your QA Program implementation will continue to be the subject of routine regional inspections.

If you have any questions concerning the above, please call R. W. Winters on 215-337-5244.

Sincerely,
