Director, Research Administration  
300 Longwood Avenue  
Boston, Massachusetts 02115

Gentlemen:

Subject: Inspection No. 85-01

This refers to the routine safety inspection conducted by John J. Miller and John T. Jensen of this office on November 19 and 20, 1985 of activities authorized by NRC License Numbers 20-09568-17 and 20-09568-18 and to the discussions of our findings held by Mr. Jensen and Mr. Miller with with yourself, Dr. S. Treves, Susan Zoeller and Frank Osborne of your staff at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your licenses. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Our inspector also verified the steps you have taken to correct the violations brought to your attention in the enclosure to our letter dated December 2, 1983. We have no further questions regarding your actions at this time.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. These violations have been categorized by severity level in accordance with the revised NRC Enforcement Policy (10 CFR 2, Appendix C) published in the Federal Register Notice (49 FR 8583) dated March 8, 1984. You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.
