JAN 28 1986

Docket No. 50-454
Docket No. 50-455

Mr. Dennis L. Farrar
Director of Nuclear Licensing
Commonwealth Edison Company
Post Office Box 767
Chicago, Illinois 60690

Dear Mr. Farrar:

This is to acknowledge receipt of your letter dated December 17, 1985, which transmitted changes, identified as Revision 16, to the "Security Plan for the Byron Nuclear Power Station," under the provisions of 10 CFR 50.54(p).

We have reviewed the submitted changes and have determined that, except for the item identified in the enclosure, they are consistent with the provisions of 10 CFR 50.54(p) and do not decrease the effectiveness of the plan. These changes are, therefore, acceptable.

For the item identified as being unacceptable under the provisions of 10 CFR 50.54(p), the previously approved plan revisions must be followed. Should you want to pursue changing the plan under the provisions of 10 CFR 50.54(P), you must resubmit the change modified to address our comments. In those instances where you desire to pursue the change without modification, it must be resubmitted under the provisions of 10 CFR 50.90.

In addition, future revisions to the Byron security program plans submitted under the provisions of 10 CFR 50.54(p) should be submitted directly to the Regional Administrator, Region III, rather than the Director, Office of Nuclear Reactor Regulation.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P. L. 95-511.

The enclosures to your letter contain Safeguards Information of a type specified in 10 CFR 73.21 and is being withheld from public disclosure.
