Docket No. 40-6659
License No. SUA-551

Petrotomics Company
ATTN: Mr. Jud Whitman
Shirley Basin Mill
P.O. Box 2509
Shirley Basin, WY 82615

Gentlemen:

This refers to the special construction inspection conducted by Mr. Konwinski of this office on October 22 and 23, 1985, of the activities authorized by NRC Source Material License SUA-551 and to the discussion of our findings held by the inspector with members of your staff at the conclusion of the inspection. The enclosed NRC Inspection Report 40-6659/85-005 documents this inspection.

The inspection was an examination of the activities conducted under the license as they relate to placement of an interim reclamation cover over the general mill site disposal area and to compliance with the Commission's rules and regulations, and the conditions of the license. The inspection consisted of a field examination of the interim cover as well as observations of interim cover placement procedures.

The inspector did not review the corrective actions you had taken relative to those violations identified during our previous radiation safety inspection which was conducted on July 30-August 1, 1985.

The inspector observed no violations for those activities examined during this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room.
