Gentlemen:

Subject: Telephone Inquiry on August 8, 1985

This refers to the telephone inquiry by Mr. C. T. Oberg of this office with Janice A. Johnson of your staff on August 8, 1985.

This inquiry was an examination of activities authorized by License No. 29-18006-01, as they relate to the information documented in your letter to the NRC License Management Branch dated April 22, 1983, informing them that your company has not possessed a radioactive source for industrial radiography use since 1979 and that you wish to maintain your license.

Based upon this telephone inquiry we understand that you have not used and do not possess radioactive sources for the purpose of industrial radiography. We also understand that as before, you still wish to keep your license current. In addition, we understand that you have moved to a new street location:

Please be informed that you should update your license by submitting a request to amend the mailing address on your license as soon as possible and that you should submit a description of your new storage facility to the USNRC, Region I, Division of Radiation Safety and Safeguards, NMS&SB, 631 Park Avenue, King of Prussia, Pennsylvania 19406, prior to the resumption of the use of licensed material.

If our understandings are incorrect, please inform us in writing.

We will review this matter during the next inspection of your licensed program.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room.
