

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555

June 7, 1985

Mr. Jack Davis  
USNRC, Region 1  
Nuclear Materials and Safeguards Branch

Dear Jack:

Please find enclosed a copy of the device registration for Fischer Technology. Some how this got lost in the "system" in being sent out to your office.

This type of device is in use as a generally licensed item by several manufacturers so it is nothing new. Their attorney, Ed Rosenthal, has been very understanding about all this so anything you can do to help them get their license is appreciated.

Thanks,

*Stacy Bell*  
427-9026
