Re: Letter Dated July 3, 1985 For Amendment To NRC License Number 34-20182-01

Gentlemen:

To complete your amendment request, it will be necessary for you to address the following:

1. Facilities

In order to authorize your request to store materials at Summit Testing and Inspection Company it will be necessary for you to submit the following:

- a. Documentation signed by the administration of Summit Testing and Inspection Company authorizing the storage of the gauges (owned by your company) on their premises.
- b. A description of your procedures for maintaining control and accountability of the gauges stored at Summit Testing and Inspection Company.
- c. A description of the area where the gauges will be stored at Summit Testing and Inspection Company. The description should include a diagram showing the relationship of the storage area to adjacent areas and security to ensure against unauthorized removal.

2. Training

In order to authorize your request to designate authorized users for the gauges "in-house", you have the following options:

- a. You may send personnel to Troxler's training course for portable gauge users and confirm that you will maintain copies of the "Certificates of Completion" on file for the authorized users; or

8512040321 851113
REQ3 LIC30
34-20182-01 PDR

- b. If you wish to provide in-house training for your own personnel, a description of the training must be provided. Included in the description of in-house training should be:
- i. The name(s), training and experience of the individual(s) providing formal training.
 - ii. An outline of the formal training and on-the-job training to be provided, including the duration of the training.
 - iii. The means of determining when the trainee has satisfactorily completed the training and is capable of carrying out the radiation safety responsibilities required by the licensee.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 79316.

Sincerely,
