Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Re: Peach Bottom Atomic Power Station Units 2 and 3
Docket Nos. 50-277 and 50-278

Dear Mr. Denton:

Enclosed for filing with the Commission are 3 originals and 19 copies of an Amendment to Philadelphia Electric Company's August 6, 1981 Application for Amendment of Facility Operating Licenses DPR-44 and DPR-56. This Amendment revises the earlier Application regarding drywell-suppression chamber vacuum breakers to reflect discussions with the NRC Staff and changes recommended by the Staff.

Very truly yours,

Eugene J. Bradley
