Dear Mr. Youngblood:

In a letter to Harold Denton, NRC, from W. F. Willis dated August 29, 1985, it was agreed that a summarization of the resolution of safety-related NSRS reports would be provided bimonthly. This is the second such report.

There has been no change in the number of NSRS open items during the past two months. NSRS expects to follow up on open items related to Sequoyah Nuclear Plant by our next reporting date.

Very truly yours,
