January 30, 1986

Herbert N. Berkow, Director
Standardization and Special Projects Directorate
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

SUBJECT: Westinghouse Response to NRC on WCAP-10851.
PAD 3.4 Questions (Non-Proprietary).

ATTENTION: Harold Bernard, Projects Manager
Division of PWR Licensing-B

Dear Mr. Berkow:

Confirming the January 23, 1986 telephone discussion between Mr. R. S. Miller of the Westinghouse Nuclear Fuel Division and Mr. H. Bernard of your office, Westinghouse will not be able to meet the requested January 31, 1986 date for response to the NRC review questions. This is due to the need to receive data from C. E. Beyer of PNL which is to be analyzed in response to one of the questions. Because Mr. Beyer cannot advise a firm schedule for delivery of the required data, we can only provide a target submittal date of February 28, 1986. In any event, we expect to complete our responses in the first quarter of 1986 unless unusual problems are found with the PNL information.

Very truly yours,

E. P. Rahe, Jr., Manager
Nuclear Safety Department
