Dr. John E. Glenn
U.S. Nuclear Regulatory Commission, Region I
631 Park Avenue
King of Prussia, PA 19406

Dear Dr. Glenn:

§ In accordance with our present NRC Materials License (37-08002-01), we are authorized to have on hand 300 millicuries of Carbon-14. Due to the increased FDA requirements for evaluation of potential new drug substances in laboratory animals, we find it necessary to request approval to increase our authorized limit of Carbon-14 as follows:

Item

6. Byproduct, source and/or special nuclear material	7. Chemical and/or physical form	8. Maximum amount that licensee may possess at any one time under this license
<hr/>	<hr/>	<hr/>
B. Carbon-14	B. Any	B. 1 curie
<hr/>	<hr/>	<hr/>

The following name was omitted from the license (Item 12) although we included it in the license renewal application: A.J. Vissali. Please correct Item 12 to read as follows:

12. License material shall be used by, or under the supervision of, Andrew Polk, Paul R. Darkes, Ching T. Tsuei, R.L. Procaccini, William L. Studt or A.J. Vissali.

AUG 06 1985

In addition, due to recent organizational changes, our name should now read:

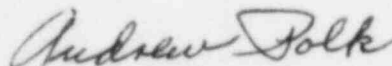

Rorer Group
Pharmaceutical Research and
Development Division
500 Virginia Drive
Fort Washington, PA 19034

There is no change in our address and there are no changes in the locations of the laboratories where the byproducts are stored and used.

Enclosed is our check in the amount of \$120.00 for this amendment.

Thank you for your kind assistance in these matters.

Sincerely yours,

Andrew Polk
