SEP 25 1985

Department of the Army
Darnall Army Community Hospital
ATTN: Colonel Richard D. Cameron, M.D.
Commander
Fort Hood, Texas 76544

Gentlemen:

This refers to your letter dated March 7, 1985, to renew your byproduct material license for use in nuclear medicine. We have completed review of your application and have the following comments and need for additional information.

Please submit a copy of your ALARA program. If you have chosen to adopt the model ALARA program in Appendix O of Regulatory Guide 10.8, you may simply fill in the blanks on the first and last pages of Appendix O, have a representative of your management sign the document on the last page, and submit the signed model ALARA program with your response to this letter.

We shall continue review of your application upon receipt of the information and revisions requested above, in duplicate.

Sincerely,

Original Signed By
C. L. Cain
