

FEB 01 1986

Docket No. 30-04708

License No. 20-12140-01

MEMORANDUM FOR: *JG* John E. Glenn, Ph.D., Chief
Nuclear Materials Safety Section B

FROM: John J. Miller, Health Physicist
John T. Jensen, Health Physicist

SUBJECT: BEDFORD ENGINEERING CORPORATION INSPECTION NO. 85-01

On November 21, 1985, an unannounced inspection was conducted of Bedford Engineering Corporation, Bedford, Massachusetts, License No. 20-12140-01. The licensee had vacated the facility at 124 South Road, Bedford, Massachusetts which is presently occupied by W. M. Hague Company. Efforts to contact the licensee by the inspectors were not successful.

The facility vacated by Bedford Engineering Corporation was surveyed using a Ludlum Model 19 Micro R Meter and a Ludlum Model 3 end window G-M survey meter. No radiation levels above background were detected throughout the building and building grounds, nor were any radioactive materials identified.
