Gentlemen:

This refers to your application dated October 15, 1985, and Nuclear Fuel Services, Inc. application dated October 16, 1985, requesting renewal of Certificate of Compliance No. 6273.

Since the certificate was first issued, the Department of Transportation (DOT) and Nuclear Regulatory Commission regulations have been modified to permit the shipment of the contents authorized by the certificate in a DOT Specification 7A cylinder (package). The contents now do not exceed a Type A quantity (i.e., 10 CFR Part 71, Table A-1). The "heels" are authorized by 49 CFR §173.417(a)(7) and 10 CFR §71.10. The other contents are authorized by 49 CFR §173.415 and 10 CFR §71.10. A determination must be made that the package meets the requirements of 49 CFR §178.350 (Specification 7A).

Accordingly, Certificate of Compliance No. 6273 has not been renewed and, therefore, is terminated.

Sincerely,

Original Signed by
R. H. Odegaard
