SUBJECT: ACKNOWLEDGMENT OF REQUEST FOR TERMINATION OF YOUR LICENSE

REFERENCE: LETTER DATED FEBRUARY 18, 1997

We have completed the administrative review and initial processing of your application.

During the initial processing, an omission was identified. The NRC Form 314 was not signed or dated. Please return this form with the proper signature and date within 30 days of the date of this letter so that your request can be forwarded for technical review. Please note that the technical review may identify additional omissions in the submitted information or technical issues that require additional information.

Amendment actions are normally processed within 60 days, unless the technical review identifies:

- Major technical deficiencies
- Decommissioning/decontamination activities are required before an application can be completed
- Confirmatory closeout surveys after decontamination/decommissioning activities are required before a license can be terminated or a facility removed from the license
- Policy issues are identified that require input and coordination with other NRC Regional offices, Agreement State offices, or NRC's Office of Nuclear Materials and Safeguards

A copy of your correspondence has been forwarded to our License Fee and Accounts Receivable Branch, Office of the Controller, who will contact you separately if the appropriate license fee has not been submitted for your request, or for billing if your request is subject to full cost recovery.
