SUBJECT: ACKNOWLEDGMENT OF REQUEST FOR LICENSING ACTION

REFERENCE: LETTER DATED JANUARY 28, 1997

We have completed the administrative review and initial processing of your application.

During the initial processing, no omissions/deficiencies were identified. Please note that the technical review may identify additional omissions in the submitted information or technical issues that require additional information.

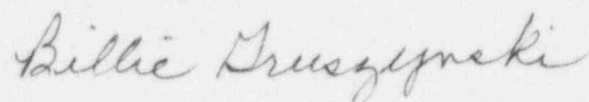

Amendment actions are normally processed within 60 days, unless the technical review identifies:

- Major technical deficiencies
- Decommissioning/decontamination activities are required before an application can be completed
- Confirmatory closeout surveys after decontamination/decommissioning activities are required before a license can be terminated or a facility removed from the license
- Policy issues are identified that require input and coordination with other NRC Regional offices, Agreement State offices, or NRC's Office of Nuclear Materials and Safeguards

A copy of your correspondence has been forwarded to our License Fee and Accounts Receivable Branch, Office of the Controller, who will contact you separately if the appropriate license fee has not been submitted for your request, or for billing if your request is subject to full cost recovery.

Any correspondence about this application should reference the Control number listed below.

Sincerely,

A handwritten signature in cursive script that reads "Billie Gruszynski".

RE: Concurrent termination of License Number: 40-27013-01
Docket Number: 030-31424
and amendment of License Number: 40-16087-01
Docket Number: 030-10348

1. Please be advised that the Department of Veterans Affairs Medical Centers at Hot Springs and Fort Meade, South Dakota have integrated per authorization of VA Central Office. Our integrated facility was renamed to, "Department of Veterans Affairs Black Hills Health Care System," with Hot Springs and Fort Meade sites. For this document we will refer to each site as VA Black Hills- Hot Springs (VABH-HS) or VA Black Hills- Fort Meade (VABH-FM.)

2. As a consequence of this integration, we request approval to concurrently terminate the VABH-FM materials license (#40-27013-01) and amend the VABH-HS materials license (#40-16087-01) to add VABH-FM as a place of use. Please refer to the annotated drawing of the VABH-FM use areas, for the areas we wish to designate. (See Attachments A, B, and C.)

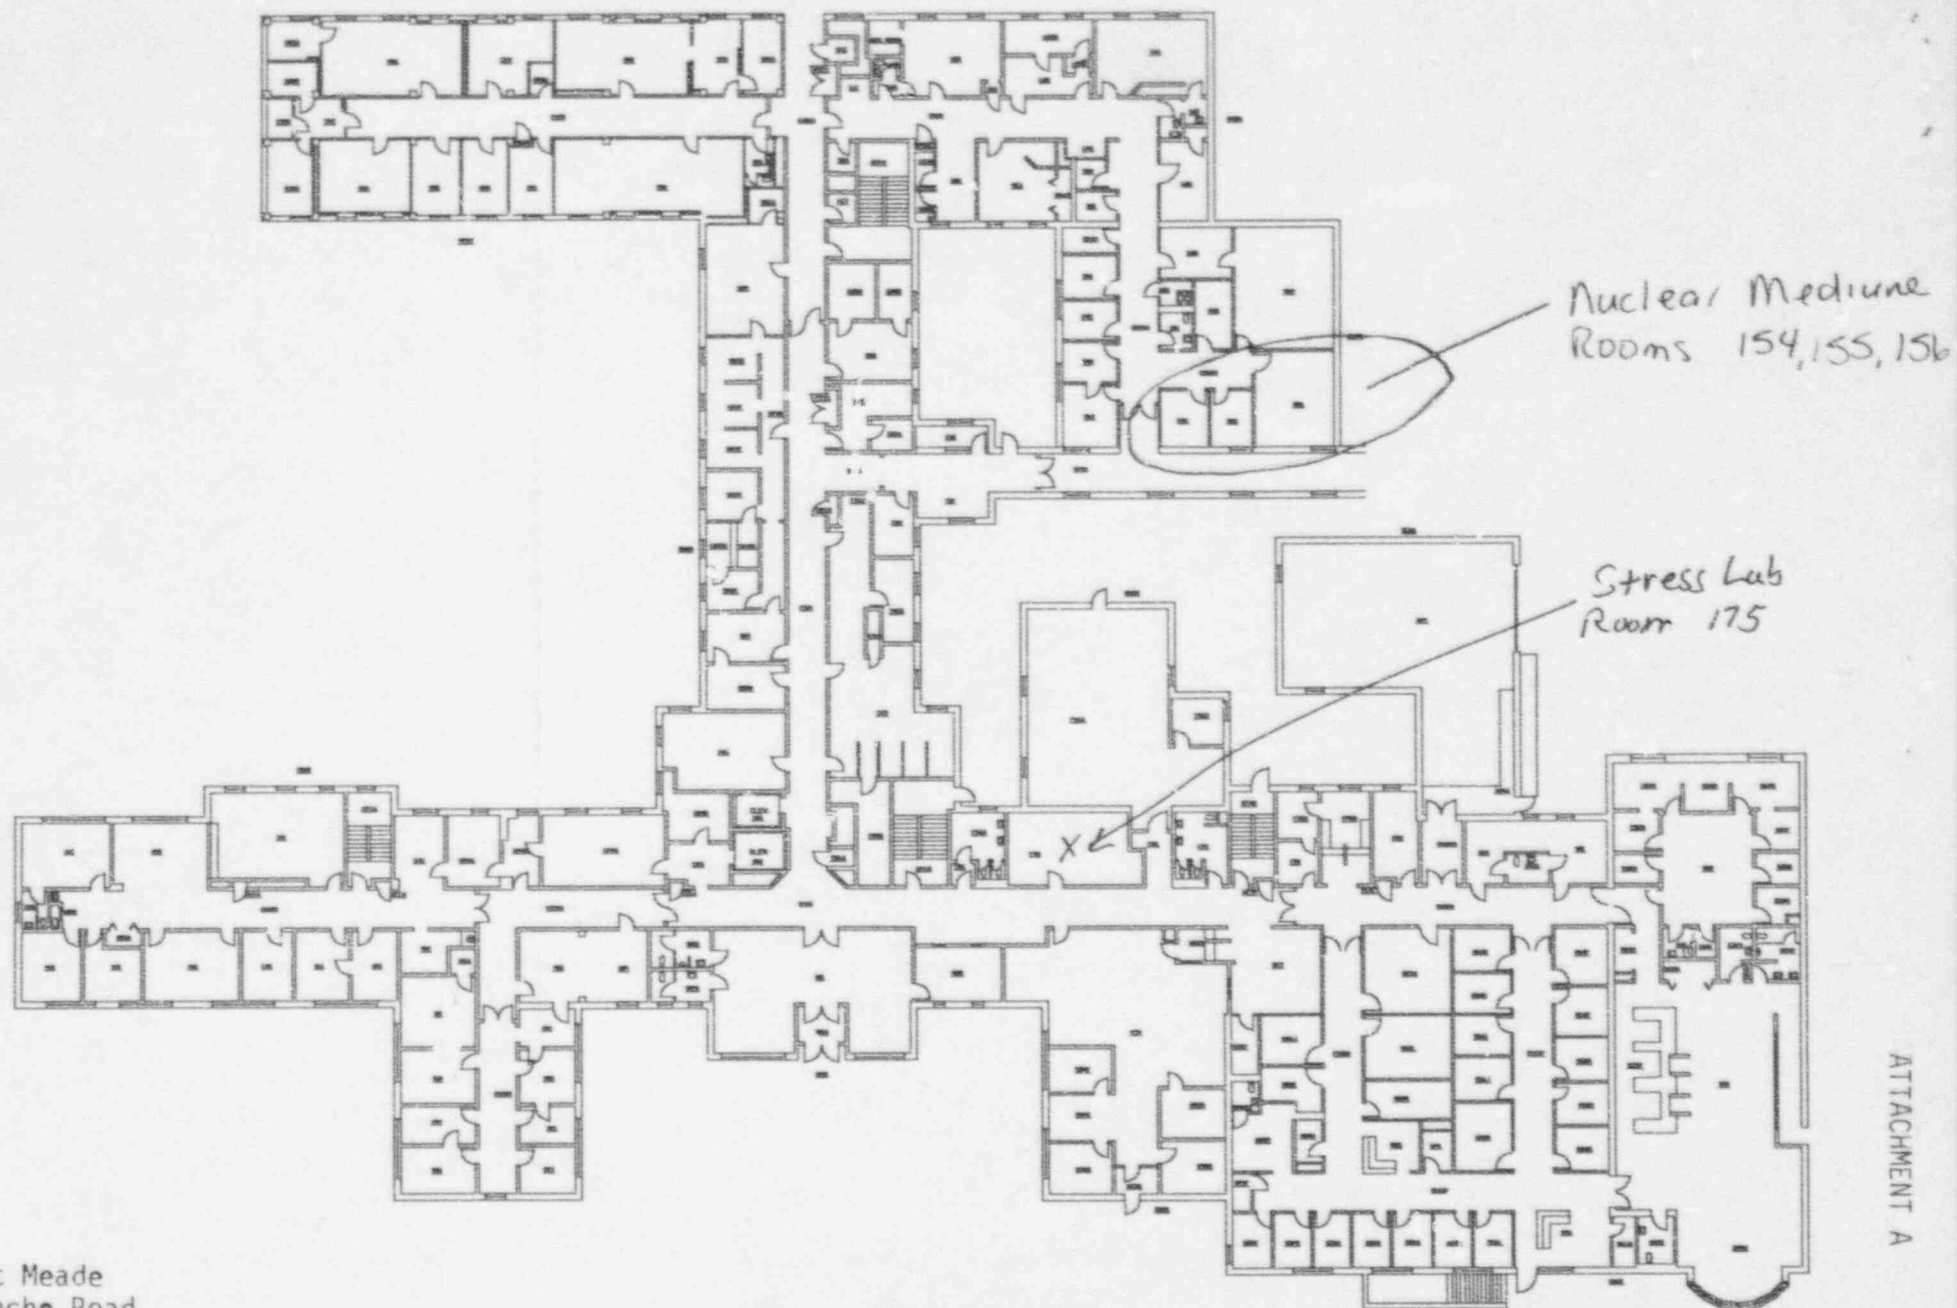

a. We request that Richard H. Stone, M.D., be transferred to the VABH-HS license as an authorized user for material identified in 10 CFR 30.100 and 10 CFR 30.200.

b. We request that the responsibilities of Radiation Safety Officer continue to be charged to Linda Grim, CNMT. She will continue to have her office at VABH-HS with routine on-site audits to VABH-FM. Ms. Grim is available by telephone or can get from one site to the other in about 90 minutes.

c. We request that the VABH-FM license condition regarding aerosol usage be transferred to the VABH-HS license. Aerosol use will only be at the VABH-FM site.

3. The Radiation Safety Committees will be integrated to include representation from both sites and membership per 10 CFR 35.22.

Peter P. Henry
Director Black Hills Health Care System
