SUBJECT: Waterford SES Unit No. 3
Receipt of Questionable Offer of High
Enrichment Uranium

Dear Mr. Martin:

This is to advise you of receipt of the attached letter from Wilma Stahl of Stahl & Stahl, Hilltown, Pennsylvania. The reason for notifying you is this offer has the appearance of offering a substantial amount of special nuclear material which could be considered weapons grade material.

The Office of Nuclear Material Safety and Safeguards was verbally contacted on September 6 to notify them of the receipt of this offer. They suggested that we also notify Mr. Raymond Hall of your office. Mr. Hall requested we send a copy of this letter to the Region IV office. In compliance with his request, a copy of the letter is attached.

Yours very truly,

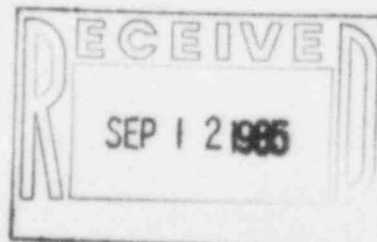

K. W. Cook
Nuclear Support & Licensing Manager
