Dear Sir:

The attached letter provides the information requested in your letter of August 1.

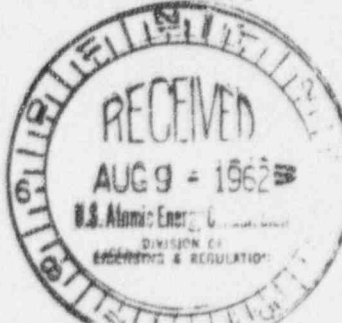

While the supplement as requested by my letter of July 20 is extremely important to us, our immediate problem is the transfer of operations to our new location by August 15. If you are unable to complete the necessary review by this date, we would like permission to transfer operations to the new location on August 15. The same safety and health regulations would be maintained, and we will abide by the quantity limitation on the current license.

If this is possible, please wire the permission collect to me prior to August 15. Thank you.

Very truly yours,

H. J. Gorman, Jr.
