

NOV 19 1985

Docket No. 50-354

Mr. R. L. Mittl, General Manager  
Nuclear Assurance and Regulation  
Public Service Electric & Gas Company  
P.O. Box 570, T22A  
Newark, New Jersey 07101

Dear Mr. Mittl:

SUBJECT: HOPE CREEK CONSTRUCTION PERMIT CONDITION 13

By letter dated June 6, 1985, you notified us that the State of New Jersey has reviewed the use of chlorine at Hope Creek, has determined the controls necessary to protect the aquatic environment from the potential toxic effects of chlorine in station discharges, and has issued a permit specifying actions to be taken by Public Service Electric & Gas Company. You, therefore, requested that the state requirements be accepted as fulfilling the chlorine minimization studies required by the Hope Creek Construction Permit (CP).

We have reviewed your request and believe your request is justified; however, acceptance of the state's chlorine study, in lieu of the CP Chlorine study will require an amendment to the CP. Accordingly, we request that you resubmit your June 6, 1985 request in the form of a CP amendment application. We will process this application as soon as it is received.

Please call us if you have any questions.

Walter R. Butler, Chief  
Licensing Branch No. 2
